

## **Environmental Policy**

Challenge Manufacturing acknowledges the importance of responsible stewardship in the area of environmental protection and continuous improvement. This recognition drives our commitment towards achieving the goals and objectives of our Environmental Management System.

Challenge Manufacturing is committed to; maintaining environmentally sound practices, the continual improvement of processes that prevent pollution and improve environmental performance, complying with environmental legislation and regulations; whether mandated by law or self-imposed, setting and reviewing objectives and targets regularly, and communicating this policy and process to all employees.
